

IN THE SPECIFICATION

Please replace the text at page 7, line 19 through page 8, line 13, with the following rewritten text:

FIG. 1 is a view showing a part of a nucleotide sequence of the SSL2 genomic gene (wild type) (nucleotides 1 to 1292 of SEQ ID NO:3);

FIG. 2 is a view showing a part of a nucleotide sequence (continued from FIG. 1) of the SSL2 genomic gene (wild type) (nucleotides 1293 to 2660 of SEQ ID NO:3);

FIG. 3 is a view showing a part of a nucleotide sequence (continued from FIG. 2) of the SSL2 genomic gene (wild type) (nucleotides 2661 to 4028 of SEQ ID NO:3);

FIG. 4 is a view showing a part of a nucleotide sequence (continued from FIG. 3) of the SSL2 genomic gene (wild type) (nucleotides 4029 to 5396 of SEQ ID NO:3);

FIG. 5 is a view showing a part of a nucleotide sequence (continued from FIG. 4) of the SSL2 genomic gene (wild type) (nucleotides 5397 to 6764 of SEQ ID NO:3);

FIG. 6 is a view showing a part of a nucleotide sequence (continued from FIG. 5) of the SSL2 genomic gene (wild type) (nucleotides 6765 to 8132 of SEQ ID NO:3);

FIG. 7 is a view showing a part of a nucleotide sequence (continued from FIG. 6) of the SSL2 genomic gene (wild type) (nucleotides 8133 to 9353 of SEQ ID NO:3); and

FIG. 8 is a view showing a nucleotide sequence of a mutant IAA14 gene (SEQ ID NO:4).

Please delete the Sequence Listing on pages 30-68.

Following page 73 (Abstract), please insert the attached substitute Sequence Listing.
